NOTICE OF AVAILABILITY OF FINAL ENVIRONMENTAL IMPACT STATEMENT

Purpose of this Notice: The purpose of this notice is to inform the public that the Final Environmental Impact Statement (EIS) for the Kalama Manufacturing and Marine Export Facility is being released.

Description of Proposal: Northwest Innovation Works, LLC - Kalama (NWIW) proposes to develop and operate a natural gas-to-methanol production plant and storage facilities on approximately 90 acres in the Port of Kalama (Port). The project objective is the manufacture and shipment of methanol to global markets for use as a feedstock for manufacturing olefins used in the production of plastics and other materials. Natural gas will be delivered to the methanol plant via a proposed new transmission pipeline lateral. Northwest Pipeline GP will be responsible for obtaining permits for and constructing this pipeline, extending from its existing pipeline approximately three miles through unincorporated Cowlitz County and the City of Kalama. Methanol will be transferred by pipeline across Port property from the storage area to a deep draft marine terminal on the Columbia River including a new dock and new berth created by dredging.

Proponent: Northwest Innovation Works LLC and the Port of Kalama.

Location of the Proposal: The project would be located on land leased from the Port. The site is located on the Columbia River in unincorporated Cowlitz County. It is accessible from Tradewinds Road, a private Port road.

State Environmental Policy Act (SEPA) Co-Lead Agencies: The Port of Kalama and Cowlitz County are co-lead agencies. The Port is the nominal lead, responsible for complying with the SEPA lead agency duties for the SEPA review process.

Date of Final EIS Publication: September 30, 2016
