

Comment Writing Workshop

No we don't want
Kalama + Port Westward
Worlds largest
methanol plant to be here

Governor Inslee:
Where is the money coming from to build
this plant? I entrusted you
to use my Tax dollars
~~wisely~~
wisely, not for Polluting!

Scoping comments: Kim Kelley

Other things we might want
to be famous for - wonderful
Salmon Runs and Fishing

Scoping comments
pipeline
shipping
methanol
NO we
don't want these
things

① If fish in the river
and could you review the
impact the big tanker ships
would have on fish habitat

Miles
clear water attorney
2017: we do want clean
water
Washington Shoreline Hearing

② Green House Gas Emission
methane is very potent, burn gas to
keep leaks down

old Shoreline Rules were invaded EIS: must consider

- Concerns
- * health
- * public safety
- * Natural resources
- * aesthetic
- * socio economic

direct, indirect & cumulative effects

Introduce yourself
say why you are concerned:

- ① I live in Kalama and I am
concerned because it would be
Aer from my house
- ② others land
would be taken from my friends
- ③ air + water qualities would diminish

Parent Companies of NW Innovation
using methanol to replace gasoline
this could be used for? what does
that mean for us
